## Something for **everyone**

The Mirage FX range of masks means there is a solution for everybody.

### **Mirage FX: the standard choice**

Using thousands of anthropometric facial scans, the standard Mirage FX size was designed to cater for a remarkable 9 out of 10 people.

### **Mirage FX Wide: a broad fit range**

To ensure that everyone can achieve maximum fit and comfort, Mirage FX Wide caters for those with wider nasal features.

### **Mirage FX for Her: just for you**

Designed exclusively for women, Mirage FX for Her provides all the same features and benefits as Mirage FX, but with a feminine touch.

The headgear is smaller with a snug crown strap and hair management options. Whether you have long or short hair, wear it tied or untied, the custom-made headgear back-strap easily accommodates your personal style... and it's finished in a soft and stylish colour scheme.
